POLICIES, PROCEDURES, AND WARRANTY

MANUAL OVERVIEW:

Your new “user-friendly” parts manual will help you place orders for Kid Kart Xpress parts. Use this manual as a tool to easily locate and order the correct parts for your customers.

The parts manual is categorized by section referencing component types and accessories. Refer to the table of contents to locate the section for the items you need. For example, section 1 contains all component parts related to the seating shell.

Each item is shown in an “exploded view” illustration. Below each drawing is a legend that has an item number, part number, product description, and quantity used per assembly. Some parts may be included in an assembly but may not be available for purchase separately. Such parts will be included in the drawing but will not be called out individually in the legend below the drawing.

FREE FREIGHT:

Orders of \$100.00 or more will be shipped free freight via ground transportation.

Orders under \$100.00 are subject to a \$10.00 service charge.
